

Electric Blower 600w

V26000

- Efficient 600W motor provides a significant amount of air force for both blowing and vacuuming functions
- Vortex design of fan blades will impressively increase the air force
- Different speed settings enable working with different blowing air rates to adapt to various kinds of applications
- Lightweight design, handy housing enables convenient use
- Tools in one, quickly convert to a vacuum cleaner for added versatility
- Strong design suitable for applications in the workshop and on the construction site
Ergonomic design provides convenient handling during operation
- Heat dissipation system ensures faster cooling and longer lifetime

3.5m³/min

3000-16000/min 2in1

600W

Model	V26000
Power	600W
Voltage	220-240V
Frequency	50-60Hz
Maximum Air Flow	0-3.5m³/min
No Loads of Speed	3000-16000/min
Weight	1.7kg
Packaging	color box
Accessories	blowpipe , Dust bag
