

Pruning Shear-FLORY Model

V74000

- SK5 steel provides excellent wear resistance and easy cutting
- High temperature heat treatment, sturdy and sharp, durable and long-lasting
- PP handle with ergonomic shape fits the palm comfortably, reducing hand fatigue
- A compact 200mm size that offers great control and easy portability in your tool pouch
- Compact and lightweight design minimizes hand soreness during prolonged use
- Teflon-coated blades glide smoothly through wood and resist rust
- High-quality spring maintains rebound and contraction, reducing effort while cutting
- Sharp, high-grade blades deliver fast, clean, and accurate cuts for professional pruning
- Easy-to-use locking mechanism, operable with either hand, prevents accidental scratches when locked

Model	V74000
Pruner Type	Bypass
Cutting Capacity	≤15mm
Blade Material	SK5
Blade hardness	54±2HRC
Handle Material	PP
Overall Length	200mm
Blade Length	50mm
Packaging	Blister Card
Product weight	181g
Weight (Packaging Included)	208g
