

Cutting Wheel 115*3*22.2 mm

V82000

- Engineered with durable resin bonding for consistent performance and extended life
- Ideal for cutting hard steel, rail, sheet steel, structural steel, tool steel, alloy stainless steel, aluminum, container structural steel, non-alloy stainless steel, and stainless steel
- Delivers extremely fast cutting, long service life, and high productivity
- It can be used on all angle grinder devices for different jobs.
- Manufactured according to EN 12413 standards and the SQ safety quality system for safe operation

Model	V82000
Size	115x3x22.2mm
Wheel Specification	A30 R BF
Shape	T42
Wheel Diameter	115mm
Max Speed	80m/s
Max Rotational Speed	13300/min
Arbor Size	22.2mm
Material	Aluminum Oxide
Weight	65gr
Packaging	Color Box
Material Compatibility	Metal
