

Cutting Wheel 230*3*22.2 mm

V82202

- This blade is suitable for cutting hard steel, rail, sheet steel, structural steel, tool steel, alloy stainless steel, aluminum, container structural steel, non-alloy stainless steel, and stainless steel
- Reinforced with a robust resin bond that maintains performance after every cut
- It can be used on all angle grinder devices for different jobs
- Delivers ultra-fast cutting speed, exceptional lifespan, and outstanding productivity
- Manufactured according to EN 12413 standards and the SQ safety quality system for safe operation

Model	V82202
Size	230X3X22.2mm
Wheel Specification	A30 R BF
Shape	T42
Wheel Diameter	230mm
Max Speed	80m/s
Max Rotational Speed	6650/min
Arbor Size	22.2mm
Application	Metal
Material	Aluminum Oxide
Weight	280gr
Packaging	Color Box
