

Cut-Off Wheel 355*3*25.4 mm

V82300

- This blade is suitable for cutting hard steel, rail, sheet steel, structural steel, tool steel, alloy stainless steel, aluminum, container structural steel, non-alloy stainless steel, and stainless steel
- Built with a resin-bonded construction for durability and long-lasting performance
- It can be used on all angle grinder devices for different jobs
- It provides extremely fast cutting, offers a very long service life, and is highly productive
- Manufactured according to EN 12413 standards and the SQ safety quality system for safe operation

Model	V82300
Size	355x3x25.4mm
Wheel Specification	A30 Q BF
Shape	T41
Wheel Diameter	355mm
Max Speed	72m/s
Max Rotational Speed	3900/min
Arbor Size	25.4mm
Application	Metal
Material	Aluminum Oxide
Weight	630gr
Packaging	Carton
