

Grinding Wheel 115*6*22.2 mm

V82900

- This wheel is suitable for grinding hard steel, rail, sheet steel, structural steel, tool steel, alloy stainless steel, aluminum, container structural steel, non-alloy stainless steel, and stainless steel
- Resin-bonded build ensures longevity and consistent performance
- Works with all standard angle grinder models, suitable for various jobs
- Provides high-speed grinding, offers a very long service life, and is highly productive
- Manufactured according to EN 12413 standards and the SQ safety quality system for safe operation

Model	V82900
Size	115X6X22.2mm
Wheel Specification	A24 R BF
Shape	T27
Wheel Diameter	115mm
Max Speed	80m/s
Max Rotational Speed	13300/min
Arbor Size	22.2mm
Application	Metal
Material	Aluminum Oxide
Weight	140gr
Packaging	Color Box
