

## Grinding Wheel 180\*6\*22.2 mm

# V82901

- This wheel is suitable for grinding hard steel, rail, sheet steel, structural steel, tool steel, alloy stainless steel, aluminum, container structural steel, non-alloy stainless steel, and stainless steel
- Constructed with a high-strength resin bond for superior endurance
- Can be used on any angle grinder for both general and specialized work
- Provides high-speed grinding, offers a very long service life, and is highly productive
- Manufactured according to EN 12413 standards and the SQ safety quality system for safe operation

Model	V82901
Size	180X6X22.2mm
Wheel Specification	A24 R BF
Shape	T27
Wheel Diameter	180mm
Max Speed	80m/s
Max Rotational Speed	8500/min
Arbor Size	22.2mm
Application	Metal and Steel
Material	Aluminum Oxide
Weight	350gr
Packaging	Color Box
